Standard Railings

Every railing is custom built to the specifications of your project; insuring proper fit and equal picket spacing.

Standard Materials:

- 2" inch Colonial Molded Handrail
- 5/8 inch solid square Pickets
- 1-1/4 inch solid square Posts
- 1-1/4 x 1/2" rectangular Bottom Bar

****Height: Our Standard Residential is 36" @ landings - 34" @ stair** All rails are assumed res. unless otherwise noted

Commercial is 42" @ landings - 36" @ stair

Please check your local building code requirements for specification with regard to commercial & residential applications

Finish-

- All standard railings are powder coated
- We also offer custom colors and exotic finishes, such as Verdigris and other patinas.

Installation-

- Complete installation service is available.
- We also sell our products to Contractors for installing (with provided field dimensions).

Warranty

3-year warranty on workmanship and materials.

This excludes the finish. Customers must be aware that our products are low maintenance, not maintenance free. It is excepted that with the size and weight of our product touch up will be necessary.

Please Note: This booklet has detailed information to help in the design of your ironwork. Most of our work is still customized, including curved sections, gates, fence, balconies, and many other custom projects. If you don't see what your are looking for please contact us for further assistance. Thank you!
