Anderson Welding & Sons LLC of Oreland, PA Wins Award in International Metalcraft Competition

FAYETTEVILLE, GA — Anderson Welding & Sons LLC of 100 Ehrenpfort Ave., Oreland has won an award(s) for outstanding craftsmanship in an international competition sponsored by the National Ornamental & Miscellaneous Metals Association (NOMMA). The event was open to nearly 800 member firms throughout the U.S. and in 9 foreign countries.

Anderson Welding & Sons LLC received the following award(s):

BRONZE- Gates, Driveway - Forged

The presentation was made at a special banquet in Tulsa, OK, March 6, during NOMMA's 52nd convention. The Ernest Wiemann Top Job Awards Competition is an annual contest that recognizes outstanding work in the ornamental and miscellaneous metals industry.

To win an award, entrants must submit photos and a description of their work. This material is then publicly displayed in a gallery where NOMMA member firms then vote. Winning a Top Job award has special meaning, since it represents a "voice of approval" from industry peers.

To reach the company, call 215-886-1170.
